Benefits: Candidates on temporary assignment may qualify for our competitive benefits package which includes group health, life and disability insurance and voluntary benefits such as retirement savings and holiday pay.

Salary range: \$55.00 to \$55.00 hourly
Employment status: Contract / Temporary

Description

Are you creative and have strong coding skills and a deep understanding of enterprise systems? Robert Half Technology is looking for a highly motivated Full Stack Software Engineer with strong software engineering techniques and knowledge of design patterns. As a Full Stack Software Engineer, you will create superior software solutions by utilizing best practices and innovation. To be successful in the role, you should be self-driven, a creative problem solver and eager to collaborate and solve complex problems both on your own and within project teams.

Your responsibilities in this role

- Advocate top programming practices and standards
- Create and bring about back end and front end components and services
- Develop solutions which account for scalability and optimize performance
- Construct excellent production-ready code in an agile environment
- Analyze new technologies and design prototypes for continuing improvements
- Collaborate within an agile team to understand business needs and work through complex business processes to create solutions that align with the company goals

Requirements

- Experience with Relational Database Management Systems
- 2+ years of experience with current development tools/languages
- Strong understanding of project methodologies
- Experience with creating and consuming WebAPI's
- Experience with common development frameworks
