

API Developer

Benefits: Candidates on temporary assignment may qualify for our competitive benefits package which includes group health, life and disability insurance and voluntary benefits such as retirement savings and holiday pay.

Salary range: \$110000.00 to \$140000.00 yearly
Employment status: Permanent

Description

- Serve as a primary resource for API development. Design, develop, test, and maintain code using open-source tools, software libraries and assume the role of SME in product and API development.
- Manage/own development of multiple API modules in conjunction with product launch timeline.
- Develop product adaptors for API standards specific to the broadcasting/media industry (ATSC)
- Drive API QA best practice, including developing test plans, test descriptions, test procedures, test automation.
- Perform code reviews and verify the implementation of system and software requirements.
- Create integration modules and abstract APIs to pass data to and from internal/external systems/products using multiple RESTful APIs.
- Participate in story grooming/refinement sessions with Product Owners, leveraging platform knowledge to clarify requirements.
- Work with internal and external teams interfacing with client/customers to understand the products
- Enforce the API Document to help your colleagues, improve the product, and improve the support experience.
- Contribute to the ongoing learning and success of the team, and the company, by sharing knowledge through mentorship, collaboration, and aiding in the documentation.

Requirements

API Development, Web API, REST API, JSON, Java API, Python
