

Software Engineer

Benefits: Candidates on temporary assignment may qualify for our competitive benefits package which includes group health, life and disability insurance and voluntary benefits such as retirement savings and holiday pay.

Salary range: \$80.00 to \$85.00 hourly
Employment status: Contract / Temporary

Description

The engineering team is focused on building products that apply artificial intelligence to analyze, secure, and deliver critical data to deter threats and drive mission success for our customers.

Requirements

- ? Have a strong technical background, including 5+ years of experience building impactful products or systems
- ? Have hands-on experience with Python and/or Golang (or similar experience with C, C++, Java, etc)
- ? Experience building a large scale system such as:
 - A distributed system with large scaling requirements, e.g. low latency, millions of users, handles PB of data, etc.
 - Created or customized machine learning models and developed them into production systems that scale
 - Architected efficient and reusable front-end systems that drive complex web applications
- ? Are willing to debug problems across the stack, such as networking issues, performance problems, or memory leaks
- ? Have built the wrong system enough times to avoid the common pitfalls, whether building something personally or advising others
- ? Are comfortable working on under-specified problems and are capable of rapidly learning and iterating on solutions
- ? Are self-motivated and comfortable working in a fast-paced environment
- ? Have strong interpersonal skills and are comfortable sharing your expertise with others

Technology Doesn't Change the World, People Do.®
