Benefits: Candidates on temporary assignment may qualify for our competitive benefits package which includes group health, life and disability insurance and voluntary benefits such as retirement savings and holiday pay.

Salary range: \$66.50 to \$77.00 hourly
Employment status: Contract / Temporary to Hire

Description

Do you combine creativity with strong coding skills and a deep understanding of enterprise systems? Robert Half Technology is looking for a highly motivated Full Stack Software Engineer with a strong knowledge of design patterns and software engineering techniques. The Full Stack Software Engineer will be expected to utilize best practices and innovation that results in superior software solutions. To be successful in the role, you should be self-driven, a creative problem solver and eager to collaborate and solve complex problems both on your own and within project teams.

Your responsibilities in this role

- Design and implement back end and front end components and services
- Evaluate new technologies and build prototypes for continuous improvements
- Collaborate within an agile team to understand business needs and work through complex business processes to create solutions that align with the company goals
- Improve solutions which account for scalability and optimize performance
- Promote top programming practices and standards
- Construct excellent production-ready code in an agile environment

Requirements

- Experienced in common development frameworks
- Experience with project methodologies
- 2+ years of experience with current development tools/languages
- Experience with creating and consuming WebAPI's
- Experience with Relational Database Management Systems
