

Data Analyst (Remote Position)

Benefits: Candidates on temporary assignment may qualify for our competitive benefits package which includes group health, life and disability insurance and voluntary benefits such as retirement savings and holiday pay.

Salary range: \$60.00 to \$65.00 hourly
Employment status: Contract / Temporary

Description

Robert Half is looking for a Data Analyst to be part of the Analytics team. The candidate will collaborate with business partners to help with day-to-day metric reporting, explaining business trends, and diagnosing data quality issues.

This is a fully remote position, available only for candidate who live in the West Coast.

if interested, please apply to the job posting with your updated resume for Suman Sandhu to review.

Requirements

Responsibilities include:

- Collect, analyze and visualize product/business data in dashboards to monitor key performance metrics
- Conduct analysis to diagnose root cause of underperforming business metric and communicate key findings to stakeholders
- Build and maintain ETL pipeline for product and operational funnel metrics and validate data accuracy

Must have

- Able to write complex SQL query and consolidate data from multiple sources
- SQL based dashboard building experience to visualize data for performance reporting
- Experience with creating replace/append ETL pipelines to support metric reporting
- Strong communication skills to synthesize business insights from data

Good to have

- Able to translate ambiguous business requirements into clear data request
- Hypothesis driven problem solving skills; experience with diagnosing business metric performance & data quality issues
- Ability to effectively prioritize requests based on business impact and urgency
- Comfortable to work closely with cross-functional partners in a fast pace with changing priorities
