

Network Administrator

Benefits: Candidates on temporary assignment may qualify for our competitive benefits package which includes group health, life and disability insurance and voluntary benefits such as retirement savings and holiday pay.

Salary range: DOE
Employment status: Contract / Temporary

Description

Our company is looking to hire a network administrator who will be responsible for managing the daily operations of our computer networks. You will be in charge of overseeing digital security and performing maintenance to ensure that the system is operating at full capacity. You will also be tasked with installing hardware and software when necessary.

A bachelor's degree in IT or computer science is needed for you to be considered as a candidate. To be successful in this role, a strong understanding of network infrastructure and the ability to administer and troubleshoot network devices are needed.

Apply today for immediate consideration!!

Network Administrator Responsibilities:

- Assess a company or organization's network and computer system needs.
- Install hardware and software.
- Make upgrades and repairs as needed.
- Oversee digital security.
- Perform maintenance that all systems are operating.
- Collect and analyze data to optimize performance.
- Onboard users to the network.
- Train users on hardware and software.
- Troubleshoot problems with the system.
- Oversee local area network and wide area network.

Requirements

Network Administrator Requirements:

- Bachelor's degree in IT, computer science, or related field of study.
- Strong understanding of computer network infrastructure.
- Ability to implement, administer, and troubleshoot network infrastructure devices.
- Knowledge of application transport and network infrastructure protocols.
- Ability to create network diagrams and documentation for design and planning network communication systems.
- Ability to quickly learn technologies and products using documentation and internet resources.
- Ability to work with all levels of IT staff inside and outside the organization.
- Ability to think through problems and visualize solutions.
- Good analytical and problem-solving skills.
- Dependable and flexible when necessary.
- Experience with local area network and wide area network administration.
