

## Cloud Engineer

**Benefits:** Candidates on temporary assignment may qualify for our competitive benefits package which includes group health, life and disability insurance and voluntary benefits such as retirement savings and holiday pay.

**Salary range:** \$59.38 to \$68.75 hourly  
**Employment status:** Contract / Temporary

### Description

- The work can be done remotely; however, they would need to align to the US team's need of work hours.
- They want to get this going as soon as possible.
- Will need resume or summary of their skills/experience, for proposal.

This work is unique, and the skillset is important must have this done properly and smoothly.

We are looking for one resource for approx 3 months to migrate integration services from the Microsoft environment to an AME environment. Experience with Ev2, AME tenant, service 360, service tree, multi-tenant authentication/authorization in cloud, infrastructure experience would be required. Overview on Ev2 below. This ask is on priority, if you could confirm by t EOD it would be greatly appreciated.

Ev2 provides secure, automated solutions for deploying Azure resources in public, sovereign and air-gapped clouds. Ev2 orchestrates resource deployment across regions and scale-units. It includes health checks to catch any potential problems before they are widely deployed. By using Ev2, you can comply with safe deployment practices for Azure.

Ev2 enables internal teams to create declarative, automated deployments of Azure services for all regions and clouds. It uses and extends ARM templates for deploying Azure resources. Ev2 extends ARM templates by providing a global service topology model and gradual rollout of changes.

When you use Ev2, you get the following benefits:

- Fewer live site incidents by following safe deployment practices (SDP)
- Orchestration to safely rollout across multiple regions and resources
- A portal to track rollouts, visualize models, and view rollout analytics
- Regulated role isolation with no direct human access to privileged resources
- Secure multi-tenancy
- Secure secret-handling at deployment time
- Full-fidelity audit trail of rollouts in all Azure clouds
- Automated deployment to a new cloud

### Requirements

Microsoft Azure, Windows Azure

### Technology Doesn't Change the World, People Do.<sup>®</sup>
