Robert Half®

is now hiring!

94404

Foster City, CA, 94404

Software Developer

Benefits: Candidates on temporary assignment may qualify for our competitive benefits package which includes group health, life and disability insurance and voluntary benefits such as retirement savings and holiday pay.

Salary range: DOE
Employment status: Contract / Temporary

Description

You could be the Software Developer that Robert Half's client in the Marketing/PR industry is seeking for a job opportunity. If you can be responsible for implementing new features, maintaining existing code, and refactoring existing code across a breadth of products used both internally and externally at the company, you will be successful at this position. This long-term contract / temporary employment opportunity is based in the Foster City, California area.

What you get to do every day

- Join forces with Scrum team to present correct work estimates

- This job is for someone who can maintain and develop new features to internal and external facing software to enhance the customer experience and resolve issues on various operating systems

- Solve and deliver production support

- Render clear and consistent notifications around solutions and time estimate to client-facing program management teams

- Regularly perform code-review and collaborate with other developers

Requirements

- Less than one year of experience required

- Candidates familiar with scrum will be preferred

- Candidates who have knowledge of education standards such as QTI/APIP, SIF, AIF will be preferred

- Applicants with experience with software development life cycles, e.g. Agile, Big Bang, Spiral, Waterfall, etc., are preferred

- Candidates with familiarity with full-stack development (front-end, to middle/application tier, to database) will be the best fit for this position

- You might be a good fit for this position if you can write clean, standardized code that performs optimally in highly concurrent environments

- Experience documenting, crafting, and testing APIs

- This position requires experience with at least one framework/library, e.g. Vue.js, Polymer, Angular.js, React.js, Ractive.js, Knockout.js, Ember.js, Bootstrap, etc.

- .NET experience
